by Oliver Jeffers

### Waiting is Not Easy!

by Mo Willems

### Twinkle, Twinkle, Little Star

by Jane Cabrera

### Touch the Brightest Star

by Christie Matheson

# Star Light Star Bright!

## Activities

### Stars

(tune: *If You're Happy and You Know It*)

There are stars in the air, in the air.  
There are stars in the air, in the air.  
There are stars in the air,  
There are stars everywhere!  
There are stars in the air, in the air!

There are stars way up high, way up high.  
There are stars way up high, way up high.  
There are stars way up high,  
There are stars in the sky!  
There are stars way up high, way up high!

Catch the stars in the sky, in the sky.  
Catch the stars in the sky, in the sky.  
Catch the stars in the sky,  
Catch the stars, stretch up high!  
Catch the stars in the sky, in the sky!

## Early Literacy Tip

When you talk about shapes with your child, they learn which features make them the same and different. Being able to tell the difference between a triangle and a circle is the same skill they will use to tell the difference between an **A** and an **O**! Learning about the different shapes will help them get ready to read.
